General notes

H141	Please note that the number of beds indicated may include beds for both adults and children. The beds do not have the same dimensions. We therefore recommend that you consult your KNAUS dealer about the dimensions of the beds provided in the vehicle so that you can decide whether they are suitable for the occupancy (adults/children) you intend to have.
H142	For some models, additional equipment must be selected in order to achieve the maximum possible beds. Your KNAUS dealer will be happy to advise you.
H711A	The fresh water tank capacity referred to schedule V, part A, no. 2.6. footnote (h) VO (EU) 1230/2012 is limited by a overflow valve to 20 ltr. (suggested filling for running order)
H712D	The fresh water tank capacity is 102 ltr. with the overflow valve closed.
H712A	The fresh water tank capacity is 80 ltr. with the overflow valve closed.
H150	H150 This option must be filled in once in the vehicle documents when the vehicle is first registered. The certificate required for the registration is supplied with the vehicle documents. Please contact your WEINSBERG dealer for more information before ordering.
H161	Available only with Styling Package
H157	Please note that mounting the bicycle carrier on the rear wall limits the field of view of the reversing camera.
H151	If this option is selected, the vehicle height increases by approx. 20 cm
H168	Please note that when selecting the pop-up roof and the option "transverse guest bed with additional cushion", simultaneous everyday use is not possible.
H148	Only available in roof colour: White
H169	The emergency bed function should only be used in exceptional cases. As an additional sleeping place in the seating group, we recommend the option "transverse guest bed with additional cushion".
H147	Maximum loadability 250 kg
H83	Wardrobe omitted
H145	If this option is selected, the vehicle height increases by approx. 11 cm
H146	In addition, the hardware is prepared to be expanded via optional sensors (e.g. door/window contact). For more information, please visit www.velocate.com
H135	Awning size differs for technical reasons when choosing the pop-up roof
H137	A voucher to redeem the medicine set is enclosed with the vehicle. The medicine set contains medicines that must be purchased from a pharmacy. The voucher can therefore only be redeemed at the responsible MediKit mail-order pharmacy at www.medikit.shop . You can also obtain further information about your MediKit at www.medikit.shop .
H177	No retrofitting possible
H165	Unfortunately, this value was not yet available when the price list was printed / published. We will update the values as soon as possible on the brand website and in the configurator. Please consult your KNAUS dealer for further details.
H722	Max. 6.000 kg total traction weight
H712E	The fresh water tank capacity is 110 ltr. with the overflow valve closed.
H162	The width of the overhead cupboard varies depending on the chosen bathroom variant. With swivel bath variant: use of a narrower wardrobe. With separate bath variant: use of a wider wardrobe.
H166	If the room bath is selected, the bed length increases by 14.5 cm in the direction of travel on the left.

FOR LEISURE VEHICLES MADE BY KNAUS, AS PART OF THE GUARANTEE CONDITIONS WHICH APPLY UPON HANDOVER OF THE VEHICLE AND IN ADDITION TO YOUR STATUTORY WARRANTY, WE PROVIDE A 10-YEAR NO-LEAK GUARANTEE ON THE VEHICLE BODY MANUFACTURED BY US.

PLEASE NOTE THE FOLLOWING IMPORTANT INFORMATION FOR ALL KNAUS LEISURE VEHICLES:

ABOUT THIS PRICE LIST:

The contents correspond to the status of printing in 07/2022. The price list is valid as from 08/2022 for the 2023 model year. Previous price lists, brochure information and technical data are no longer valid in regards to the vehicles offered. Errors and misprints excepted.

ABOUT TECHNICAL SPECIFICATIONS AND ILLUSTRATIONS:

All measurements and weights are subject to change within possible tolerances of ± 5% due to the use of natural raw materials. We advise you to have any additions, alterations or installations carried out exclusively by authorised KNAUS dealers and to insist on original KNAUS parts in order to ensure your safety and to ensure that the type approval of your vehicle is not put in jeopardy. Any retrofitting of alterations or installations, in so far as they are technically feasible, shall incur a cost. Certain combinations of custom requests may be impossible in certain cases. We reserve the right to make changes to construction, colour and fittings in so far as these provide a technical advance, are reasonable and/or serve the purpose of safety. Information on the product delivered, dimensions, mass and appearance, correspond to our understanding at the time of printing (07/2022). We reserve the right to make changes to fittings, technical data, series equipment and prices. Please make every effort to be fully informed about these matters by your authorised KNAUS dealer before making your purchase. After a contract has been concluded, we reserve the right to make technical changes within the framework of the construction insofar as they serve technical progress and are acceptable for the customer. Minor colour and texture deviations are also reserved - even after conclusion of the contract - insofar as these cannot be avoided due to the material structure (e.g. colour deviations of up to approx. 2.0 dE between paint on sheet metal and paint on GRP/plastic) and are reasonable for the customer. Some of the illustrations show equipment features that are not included in the standard equipment and that can be ordered for an additional charge (optional equipment) as well as some equipment features of

prototypes/studies that do not correspond to the standard equipment and therefore cannot be ordered as optional equipment. Slight colour deviations of the illustrations in the brochure from the actual vehicle cannot be completely excluded for printing reasons. Therefore, before purchasing a vehicle, please seek comprehensive advice on the current status of the series from an authorised KNAUS dealer. The decoration shown in the catalogue is not part of the equipment supplied.

ABOUT WEIGHTS, CALCULATIONS EXAMPLES AND NORMS

The water supply system corresponds at least to the state of the art 03/2009 (regulation 2002/72/EC) The fresh water tank capacity referred to attachment V, part A, no. 2.6. Fn. VO (EU) 1230/2012 depending on vehicle type is limited by a circulation valve to 10, 20 or 40 ltr. (suggested filling for running order). KNAUS leisure vehicles are characterised by their technical progress. With the help of innovative solutions such as the use of high-strength steels for the chassis or intelligent honeycomb technology in furniture construction, low tare weights of KNAUS leisure vehicles are achieved. The mass of the empty vehicle within the meaning of this price list is the mass of the vehicle with standard equipment and without basic equipment, i.e. without the mass of the driver and without „liquids“, as well as without additional equipment within the meaning of Art. 2, no. 3 VO (EU) 1230/2012. The mass in running order as referred to in Art. 2, no. 4 a) VO (EU) 1230/2012 is, unless otherwise regulated, defined as:
 Mass of the vehicle with standard equipment as specified by the manufacturer (incl. bord tools)
 + Fuel tank 90% filled
 + 75 kg (weight of the driver)
 + Alu liquid gas bottle (5kg/11 kg) 100% filled (18/23 kg total mass)
 + Fresh water tank (100% filled) (filling capacity depending on vehicle model limited to 10 ltr.**/20 ltr.**/ 40 ltr.** fresh water in running order, if technically intended)
 + Toilet flush tank (100 % filled)
 + Fresh water heater (100% filled)
 = Mass in running order
 The technically permissible total mass according

to Art. 2, no. 7 VO (EU) 1230/2012 is defined as:
 The maximum mass of the vehicle as stated by the manufacturer when loaded, i.e. the maximum permissible mass of the vehicle in running order with optional equipment and load (passengers, luggage, etc.).
 The maximum load capacity as referred to in the KNAUS catalogue is defined as:
 Technically permissible maximum mass
 - mass in running order
 = maximum load capacity
Example:
 (Technically permissible maximum mass) 3.500 kg
 - (mass in running order) 2.850 kg
 = (Maximum load capacity) 650 kg
 The information provided for a vehicle under the heading „Technical Data / Equipment Details“ initially refers to the basic type of model approved under the EC type-approval procedure. Within the scope of country variants and special models, these values may differ if necessary. Please inform yourself about such deviations personally at your KNAUS specialist dealer. Please note that the maximum load capacity as specified in the catalogue is reduced, for example, by the mass of the passengers and also by the mass of any additional equipment ordered. When selecting additional equipment, you are responsible for ensuring that, after deducting the mass of the passengers (estimated at 75 kg per passenger) and the mass of the additional equipment from the maximum loading option, your KNAUS motorhome/CUV still has a minimum loading option (= minimum payload) which must not be undercut under any circumstances (see Annex I, Part A, no. 2.6.4.1.2 of VO (EU) 1230/2012):
 Example calculation of the minimum payload:
 (Maximum number of authorised passengers plus driver + (Total length of the vehicle in m)
 x 10
 = Minimum load capacity in kg
 [(Maximum number of authorised passengers plus driver) 4 + (Total length of the vehicle in m) 6]
 x 10
 = 100 kg
 As a customer of KNAUS leisure vehicles, you are required to ensure that the leisure vehicle configured by you still complies with the minimum pay-mass once your selected additional options have been taken

into account. If this should not be the case because of additional options requested by you, then you have two options to choose from when placing your order:
 • increase the pay-mass of the vehicle
 • deselect additional options
 For certain motorhome / CUV models by KNAUS, you have the option of reducing the number of permitted seats in running order when ordering the vehicle (depending on the model and only on demand). Reducing the number of permitted seats in running order by one seat increases the load capacity or the possibility of ordering additional equipment for your leisure vehicle by a maximum of 85 kg. Your KNAUS dealer will inform you at any time about the remaining minimum payload of your vehicle. The mass of the vehicle with standard equipment as specified by the manufacturer is determined by weighing a vehicle with standard equipment. As a user of a motorhome/CUV, you are obliged not to exceed the „technically permissible maximum mass“ when driving and to ensure compliance with the permissible axle loads by distributing the load evenly in the vehicle. You are also obliged to comply with all other regulations necessary for the safe operation of your vehicle.

SPECIFICATIONS AND INFORMATION ABOUT PRICES

If you order options that replace components from the packages, these package components are not additionally supplied. The prices indicated are recommended retail prices of the manufacturer. The prices indicated include the statutory value added tax (and, if applicable, other legally prescribed calculation factors or taxes, which may also be shown separately). The prices are (depending on the country) exclusive of the costs for registration documents, delivery and transport, unless expressly stated otherwise. Please consult your KNAUS dealer for further details. The suggested retail prices for the optional extras apply exclusively to options built into new vehicles in the production run at the factory. Also bear in mind that retrofitting is not possible for all optional extras offered. The suggested retail prices given for individual equipment packages are not affected by the selection or deselection of additional options.
